

# Better Infusion Care For Your Family

Loved by patients and trusted by employers,  
Leap Health makes infusion care more convenient  
and affordable for you.

## PERSONALIZED CARE DELIVERY

Through Leap Health, you receive white-glove service, including at-home treatment options or care at an infusion center most convenient to you.

## SEAMLESS ONBOARDING

Leap Health facilitates all your infusion care needs. Benefits include:

- Dedicated care guide
- Scheduling around your availability (within a week)
- Choice of home-care (eliminates commute and wait) -OR- local infusion center
- Significant cost savings for you
- Proactive care coordination – Your care guide will ensure your visits go smoothly and coordinate follow up visits.
- Continuity of care – Your care guide will proactively coordinate visit notes with your prescribing physician, eliminating delays in any prescription updates. Whether you are already receiving treatments today or need to start treatments, discuss with your care guide so we can facilitate options that meet your needs.

## DEDICATED CARE GUIDE

Each member is paired with a dedicated care guide, a licensed nurse, who will work with you to understand your needs, answer questions, and coordinate care.

# Frequently Asked Questions

## WHAT IS LEAP HEALTH?

Leap Health is a national provider of infusion care that works with members to deliver infusion care in the member's home or at a local infusion clinic. Leap Health has a nationwide network of home infusion nurses who deliver care right to your home. By enhancing infusion care delivery, you are able to eliminate commuting and waiting times, leading to better adherence and outcomes.

## HOW MUCH DOES LEAP HEALTH COST?

Leap Health is the only national infusion provider that does not mark-up the cost of the drug. Instead, Leap Health maintains an accredited network of specialty pharmacies and negotiates the lowest price for the prescribed drug for each patient. You pay a portion of the price of the medication with no provider margin or mark-up.

## WHAT CONDITIONS DOES LEAP HEALTH TREAT?

Leap Health's formulary encompasses a wide range of conditions including but not limited to: Multiple Sclerosis, Hematology, Lupus, Chronic Inflammatory disorders, Crohn's Disease, Chronic Kidney Disease, Bleeding Disorders, Immunoglobulins, and some oncology treatments.

## IS LEAP HEALTH IN-NETWORK?

Leap Health works directly with WELS Veba Group Health Plan to provide eligible members coverage and is typically the lowest cost option for treatment. Leap Health streamlines claims protocols and ensures that you are not burdened with balance billing or other out-of-network costs.

## WHO WILL I CONNECT WITH AT LEAP HEALTH?

You will be assigned to a Leap Health care guide who will be your dedicated point of contact for every episode of care. Your care guide will work with you to customize your care, coordinate care delivery, connect with your referring physician, and schedule follow up appointments. The care guide is there to make this easier for you.

## WHAT HAPPENS IF I AM NOT ELIGIBLE FOR HOME TREATMENT?

Leap Health's medical team tailors each patient's care journey using evidence-based guidelines. If you are not an optimal candidate for in-home care, Leap Health will navigate the care delivery to an accredited, in-network infusion center within a reasonable distance of your home.

## HOW DO I GET STARTED?
